6 January 1969

MEMORANDUM FOR : Chief, Engineering Support Division, TSSG

SUBJECT : Residual Inventory from PI Print Enlarger

1. A contract was recently cancelled with one of our contractors and the residual inventory was received at NPIC. A list of this inventory is attached to this memorandum. Some of the mechanical components and the lenses are now in the possession of TSSG/DED. The remaining components are located in two wooden boxes in Room 1N413B.

2. Please inform your personnel that they are free to use any components for which they have an immediate or anticipated need. Those components already salvaged by TSSG/DED can probably also be obtained if your personnel have a requirement for them.
